Park Master Plan

The Town of Pantego Bicentennial Park has been a focal point of the town and a hot spot for events ranging from birthday parties and weddings to all sorts of holiday events. The Bicentennial Park was said to be "Built in the spirit of freedom by the local citizens", and has undergone many changes over the years. Over the years, it became evident that the park never really had a true park master plan to guide its development.

A park master plan is created as a blueprint to help organize and guide the development and proposed uses of a park facility. Upon the selection of the landscape architect, a survey was issued for residents to voice the desires and concerns for future park development. The process has led many to examine aspects of future development that had not been considered in previous years. The park master plan has undergone several changes to consider the wants and desires of the citizens and to help address the concerns and issues with maintaining the park as identified by town staff.

Council is encouraging citizen feedback on the proposed Park Master Plan and will hold a Special Meeting to allow citizens to voice their opinion on the plan.

Vacation Watch Online Form

As people go out of town to visit relatives during the holidays, don't forget that the Pantego Police Department offers a Vacation Watch program free to citizens. This program allows a resident to feel confident in knowing that their home is being monitored by a Pantego Police Officer. Upon return, the officer issues the resident a report detailing any unknown vehicles at the home and when officers stopped by.

Type in the address: www.townofpantego.com/programs to fill out the form online and the Vacation Watch request will be sent directly to the Pantego Police Department.
